

# INVESTING IN THE ATLANTA REGION'S LOGISTICS LINK TO THE WORLD

With purposeful stewardship and community investment, the South Fulton Community Improvement District (South Fulton CID) supports the critical infrastructure needed to power the Atlanta region's logistics link to the world.

## ADVANCING INFRASTRUCTURE IMPROVEMENTS THAT KEEP THINGS MOVING IN SOUTH FULTON.

The South Fulton CID is a self-taxing group of property owners working together to facilitate business and community development through transportation improvements in partnership with government officials, business professionals and members of the surrounding community. It has two clear objectives:

**Enhance mobility and safety through the improvement of existing transportation infrastructure for those who work, reside, shop and commute in and to the South Fulton CID area.**

**Enhance economic vitality and promote orderly growth in South Fulton.**

# INFRASTRUCTURE IMPROVEMENTS KEEP SOUTH FULTON MOVING

Each year the South Fulton CID directly invests in infrastructure and economic development to improve accessibility for commuters, customers, and suppliers. The following projects are currently underway or planned:

TIMELINE	PROJECT
2023	Upgraded intersection ramps on US 29 at SR 74 and at McLarin Road
2023	Adding left turn lane from Oakley Industrial Boulevard into SC Johnson
